Your care, at your time

If you are in need of nursing care, you can visit our ambulatory nurses' station by appointment. A nurse will provide your prescribed care in a professionally equipped room. Visiting our ambulatory nurses' station is convenient if you want to make plans for the day and don't want to wait for your nurses' house call.

What kind of care do we provide?

- injections
- wound dressing
- specific technical care, such as: intravenous and subcutaneous infusion, flushing a port-a-cath, etc.)
- blood collection
- pre- and postnatal consultation
- diabetes consultation

What do you have to bring along?

- Prescription of your general practitioner or specialist
- Vignette of your insurance company
- Your electronic identity card
- For injections: the product that needs to be administered/vaccine
- For wound dressing: all prescribed bandages and products
- For perfusion: all prescribed products
